

Helloooo my fabulous Year 2 class,

We have now entered the fabulous month of May and I am hoping the weather is here to stay. As always it is so nice to hear all about what you have been up to on our weekly calls, some of you have very exciting plans for VE day and I know Mr Parks has had some fabulous pieces of work sent to him - so well done if you completed his challenge.

Also I hope you all enjoyed our Youtube video - we are all missing you so much and we cannot wait to see you all again. I am definitely missing all your smiley faces and jokes. Also I am missing our weekly competition of teacher vs students instead I`m having to look after Bertie who likes to get up to mischief by chewing on laces and climbing into toy boxes.

I hope you are all well! Keep being superstars by keeping yourselves safe!

Best wishes

Mrs Ellerton

Be a Protector	Be a food detective	Be creative	Be mindful
<p>This week is National Sun Awareness Week.</p> <p>Now we have had some fantastic weather, however when the sun is shining we must remember to</p>	<p>Since we have not been in school, I have been learning to cook a bit more.</p> <p>When cooking my favourite meals I often think to myself where about in the world did this food come from?</p>	<p>I love being creative and I keep looking around my house to see what things I can turn into something fun!</p> <p>Well this week, I have come up</p>	<p>This week I have needed to find some time to relax my mind. I love to colour in however this week I found something else to relax me and that was colouring in my kitchen roll.</p>

protect ourselves.

Here are some top tips

1. Wear protective clothing
2. Use sun cream - the more protection the better - and apply it throughout the day
3. Limit your time in the sun between 10 am and 4 pm as these are peak hours
4. Wear sunglasses
5. Sit in the shade at regular intervals

Using this information can you design a Sun safety poster which will help others to stay safe in the sun.

Below is a website that can help you find out more information.

<https://www.twinkl.com/event/national-sun-awareness-week-2020>

So this week your task is to ask all your family members what their favourite food is, you could even give some of your family members a ring and ask them.

Once you have found out what their favourite meals are - with help from an adult and using the internet can you find where that food came from?

You could even create a family menu with some key facts about their favourite foods.

with the idea to use my left over toilet rolls and turned them into a range of different animals or objects.

This week you could also draw and colour in a sunrise or a sunset. This can be linked to National Sun Awareness Week.

When colouring in think about - what colours will you use? How many colours are in the sky? Are there any animals about? What other buildings can you see?

Have you ever noticed the different patterns on kitchen roll?

I used some felts and just coloured in the dots in different colours. It was really relaxing. Have a go - how does this make you feel? What patterns have you created?

If you are looking for other ways to relax why not try the yoga exercises on go noodle.
