Subject	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12
Subject Science Topic Focus – 1. Animals includin g humans 2. Seasonal changes	VVEEK 1 NC Objective – To identify, name draw and label basic parts of the human body Scientific enq: asking simple questions and recognising that they can be answered in different ways	VVEEK 2 NC Objective – To say which part of the body is associated with each sense Scientific enq: using their observations and ideas to suggest answers to questions	VVEEK 3 NC Objective – To perform simple tests in the context of investigating each of the senses Scientific enq: performing simple tests	VVEEK 4 NC Objective – To identify and name a variety of common animals including fish, amphibians, reptiles birds and mammals Scientific enq: identifying and classifying	VVEEK 5 NC Objective – To describe and compare a structure of a variety of common animals Scientific enq: identifying and classifying	VVEEK 6 NC Objective – To identify and name a variety of common animals that are carnivores, herbivores and omnivores Scientific enq: asking simple questions and recognising that they can be answered in different ways identifying and classifying	VVEEK 7 NC Objective – To observe changes across the 4 seasons in the context of the weather. I can describe how the weather changes across the seasons. To observe and describe how day length varies by exploring the average number of hours of day light in autumn. I can describe day length in autumn. Scientific enq: asking simple questions and recognising that they can be answered in different ways using their observations and ideas to suggest answers to questions	VVEEK 8 NC Objective – To observe and describe weather associated with the seasons by observing the weather in autumn. • I can observe and describe the weather in autumn. To gather and record data to help in answering questions by recording the weather, temperature, rainfall and wind direction in autumn. • I can collect and record data about the weather in autumn. Scientific enq: sking simple questions and recognising that they can be	 VVEEK 9 NC Objective – To observe changes across the 4 seasons by going on an autumn walk. I can identify signs of autumn Scientific enq: asking simple questions and recognising that they can be answered in different ways using their observations and ideas to suggest answers to questions gathering and recording data to help in answering questions. 	NC Objective – To observe and describe how day length varies in the context of autumn to winter. • I can describe how day length varies from autumn to winter. To observe changes across the 4 seasons by looking at how trees and the clothes that we wear change from autumn to winter. • I can identify changes in the trees and in clothes that we wear from autumn to winter Scientific enq: 3WSZDEXZ	VVEEK 11 NC Objective – To observe and describe weather associated with the seasons by observing and recording the weather in winter. • I can observe and describe the weather in winter. To gather and record data to help in answering questions by recording the weather, temperature, rainfall and wind direction in winter. • I can collect and record data about the weather in winter. Scientific enq: asking simple questions and recognising that they can be	VVEEK 12 NC Objective – To observe changes across the 4 seasons by exploring how some animals adapt to survive in winter. • I can explain how some animals adapt in winter. Scientific enq: asking simple questions and recognising that they can be answered in different ways

	Key Knowledge That we have many different body parts and each part has a name and a purpose-	Key Knowledge That we have 5 senses	Key Knowledge That our senses help us find out about the world around us and can keep us safe	Key Knowledge That there are 5 main groups of animals	Key Knowledge That animals are structured in a variety of ways	Key Knowledge Animal can be grouped by what they eat Animal can be grouped by what they eat	Key Knowledge I know there are four seasons and we are experiencing Autumn	answered in different ways observing closely, using simple equipment Key Knowledge I can talk about changes in the weather due to the Winter	Key Knowledge That the typical weather for Autumn is cooler than Summer but with some bright days. Term: Autumn

	these in a range of activities	begin to apply these in a range of activities	these in a range of activities	agility, balance and coordination, individually and with others.	and coordination, individually and with others.	to extend their agility, balance and coordination, individually and with others.	these in a range of activities	these in a range of activities	these in a range of activities	agility, balance and coordination, individually and with others.	and coordination, individually and with others.	agility, balance and coordination, individually and with others.
	Key Knowledge – I can begin to accurately throw a ball towards a target.	Key Knowledge – I can track a ball in a controlled and balanced movement.	Key Knowledge – I can receive a ball successfully by co-ordinating my body and remaining balanced.	Key Knowledge – I can start to dribble a ball with either my feet or hands.	Key Knowledge – I can utilise these skills in basic game situations and co-ordinate with team mates.	Key Knowledge - I can travel in different ways, changing speeds safely.	Key Knowledge I can link to actions to make a sequence.	Key Knowledge - I can begin to move with control and care, navigating through different objects and equipment.	Key Knowledge - I can carry out a range of simple jumps and land safely.	Key Knowledge - I can hold still shapes and simple balances.	Key Knowledge - I can create, perform and copy a movement sequence with a beginning, middle and end.	Key Knowledge – I can create, perform and copy a movement sequence with a beginning, middle and end.
