If we dig down deeper what will we find in 2027?

- We nurture children through love to raise aspiration, independence and instil self-belief.
- We will work with external organisations to build up the local community and support for families.
- We feel wellbeing matters and time is given to support additional workload to maximise impact.
- People say staff are always available to support us and the school offers a high level of Education and care that meet the needs of our children.
